RENEWABLE ENERGY

Policy, Security, Electricity, Transport, Water Resources and the Built Environment

Among the Sponsors:

WREC

River Publishers

Swift-Hook Associates

Southwest Solar Park

Seminar Director

Professor Ali Sayigh

Chairman of World Renewable Energy Congress and Council, Director General of World Renewable Energy Network (WREN), Chairman, Founder of the Arab Solar Energy Society, Past Chairman of the UK Solar Energy Society, Director of Solar Seminars at ICTP- Trieste, Italy 1977-1995, Professor and head of Solar Energy: Saudi Arabia, Kuwait, and Reading Universities from 1969 to 1994. 1994- 2002, professor at the University of Hertfordshire 1995-2004. He is founding member of The Arab Science and

Technology Foundation (ASTF), Sharjah, UAE, 2000, Fellow of the Institute of Energy; Fellow of the Institution of Engineering & Technology (IET); Chartered Engineer; Chairman of Iraq Energy Institute. He has published more than 600 papers and written and edited more than 45 books.

He is editor and editor-in-chief of several international journals including the one which he founded in 1983 Solar and Wind Technology which is now called Renewable Energy – the official Journal of WREN published by Elsevier Ltd. He established with Sovereign publications and recently with Ten Alps the annual Renewable Energy Magazine in 2000, Coeditor-in-chief of ICPSR Journal™ ISESCO Vision of Science and Technology and Editor-in-chief of Comprehensive Renewable Energy (8-volumes) - an online research resource.

RENEWABLE ENERGY

Policy, Security, Electricity, Transport, Water Resources/Management and the Built Environment

The seminar will review the role of renewable energy systems in meeting the world energy demand in electricity and focus on up to date technologies in manufacturing, buildings, transport and water resources and management. Special attention is given to environment and energy saving.

It will open the opportunity to participants to learn and co-operate with various industries and to notice the progress in renewable energy development. It reviews the climate change and other environment issues.

Main topics covered during the seminar will include:

- climate change
- Energy Economics
- update on renewable energy
- wind energy Technologies
- biomass industries
- Waste to Energy
- photovoltaic technology
- heating and cooling applications
- low energy buildings
- energy saving in buildings
- Low energy architecture & Building materials
- project finance and incentive
- fuel cells,
- hydro power, Ocean Energy
- **organised industrial and social programme**

Some of the expected speakers include:

Prof. Phil EAMES
Loughborough University, UK

Prof Ali Sayigh
WREN, UK

Prof R Critoph
Warwick University, UK

Mr Tony Book

Riomay, UK

Mr M Alder

AEP, UK, Wind Direct

Dr A Williams

Nottingham Univ., UK

Prof M Y Othman

University Kebangsaan Malaysia

Prof K Sopian

University Kebangsaan Malaysia

Mr David Milborrow

Consultant, Expert

Prof Dr D Chieduk

Warsaw University of Technology, Poland

Mr Bill Watts

Max Fordham Associates

Wind Energy Consultant, UK

Prof Giuliano C Premier

University of South Wales

Prof Nader Al-Bastaki

Bahrain University, Bahrain

Prof Ian Masters

Marine Department, Swansea University

Prof Don Swift-Hook

Secretary General of WREN Trustees-UK

Dr Larry Kazmerski

Solar PV Kazmerski – USA

Dr Jazaer Dawody

Volvo Company - Sweden

Participants

The seminar is important for policy Makers, industrialists, government Agencies, decision makers, researchers, Managers, and manufacturers. University Staff and Postgraduate Students.

Numbers

There are places for 30 participants and These will be allocated on a First-come First-serve basis.

Fees

Fully residential fee only: £950

(Nine Hundred & Fifty Pound Sterling)

The fee includes

- The cost of 6 night accommodation
In single rooms with private bathroom
Or shower in 4-stars hotel.
- All meals, Except Sunday night 24 July.
And Wednesday Evening 27 July.
- Full academic programme, including
Industrial and social programme
- Welcome and farewell packs
Including programme, speakers' notes, local information, etc.
- Seminar certificate and group photograph
- Experienced seminar manager in daily attendance.

This is a residential seminar. We are unable to accept non-resident participants and regret that requests for reductions or refunds cannot be accepted.

Accommodation before and after the Seminar

Any participant who wishes to stay extra

Days must arrange his/her stay directly with the Hotel Manager.

Joining instructions

Participants will be sent joining instructions, including directions for reaching the seminar hotel, the postal address and telephone Number of the hotel and the latest time of arrival.

Seminar location

The seminar will be held in Brighton City, Brighton is a south- coast city noted for its theatres, music, museums, cinemas, and Art galleries, as well as a wide variety of shops. Nearby are places of outstanding historical and geographical interest, including Arundel Castle, Alfriston, Lewes, Eastbourne and Beachy Head. Brighton is easily reached from central London (one hour by train), and from Gatwick airport (30 minutes) and London Heathrow airport by coach (1.5 hour). The Hotel is on the sea front 12 minutes from Brighton railway station, and 5 minutes from Coach Station.

Seminar dates

The seminar will commence at 9:00 Monday morning on 25 July 2016 and will close after breakfast on Saturday 30 July 2016.

International travel

Participants should make their own travel arrangements to and from the seminar centre. They are strongly advised to make Return reservations before leaving their own country as it may be difficult to make them after arrival.

Insurance

Seminar participants are strongly advised to make arrangements for travel and health insurance before their departure.

Cancellation of the Seminar

If obliged to cancel the seminar, the World Renewable Energy Network reserves the right to do so without indemnity, subject To the return of any registration or enrolment fees already paid.

WREN is a worldwide network of organisations promoting environmentally safe and economically sustainable renewable energy. WREN has been established to support and enhance the utilization and implementation of renewable energy sources; to further the communication and technical education and networking among scientists, engineers, technicians and managers in this field of Renewable energy, climate change and global warming; and to address itself to the energy needs of both Developing and Developed countries.

For Application Form, please see our website: www.wrenuk.co.uk under Seminar 2016
