

Mr. Laurell and Mr. Nylund will jointly present the vision within the theme:

## **Efficient Renewable Energy Systems that use Biomass, Industrial Excess Heat, Screened Waste, and Waste Water for a Healthy Environment**

**Mr. Per Laurell**  
**CEO Gävle Energi**

Per Laurell is the CEO of Gävle Energi AB. Mr. Laurell has a Master of Science in Electrical Engineering from Chalmers University in Gothenburg, Sweden completed with a MBA from University of Uppsala in Sweden.

Mr. Laurell is a member of the Board of Directors within the following organizations:

- Swedish Electrical Utilities' R & D Company
- Power Circle AB

Further professional experience: ABB, EM Automation AB, Ericsson, Emerson Electric and as private consultant in management services.

Gävle Energi serves as the energy company for the municipality of Gävle and the surrounding region by supplying a complete range of energy solutions to public and industrial enterprises, as well as to private households. Climate neutrality is a key issue, which is why the company operates almost entirely with renewable energy sources, as well as provides services for obtaining energy efficiency.

**Mr. Thomas Nylund**  
**CEO Gästrikre Återvinnare (Regional Recycling Company)**

Mr. Nylund is CEO for the regional recycling company Gästrikre Återvinnare (GÅ), which is an association that serves five municipalities. GÅ has the responsibility for waste management in the municipality, which includes collection, recycling and treatment of household waste.

Mr. Nylund has a M. Sc in Engineering from the Royal Institute of Technology in Stockholm, Sweden. He is also CEO of the waste management development company GÅ Utveckling AB, member of the board of the private waste management company Gästrikre Avfallshantering AB, member of the board of the Regional Foundation for environmental research – Forskningsstiftelsen Gästrikeregionens miljö. Mr. Nylund is also member of the council for waste disposal within the Swedish organization for Local Municipal Enterprises – KFS. He is also involved in a working committee regarding procurement of waste management services at the national Swedish Waste management association – Avfall Sverige.
